

Our legacy of excellence

Every moment we are on a constant quest of excellence in a world with unlimited possibilities, in a world which knows no boundaries, in a world where everyone writes their destiny; Mark Your Excellence with Intellio.

Based in Germany, world's epicenter of fine writing instruments, Our home is our inspiration and remains a driving force behind everything we do as a brand. We combine our legacy with our shared history with the heritage with the entirety of Europe. Geometric shapes and patterns of architecture, the color palette of artists, stories of individuals, and cultural movements from across Europe have influenced our design and aesthetics. Intellio's writing instruments become an expression of the legacy and culture that inspires us while representing continued excellence.

At Intellio, our respect for our culture and tradition stems right from our identity, and a peacock feather forms the basis of it. Across cultures and civilizations, it has stood as a symbol of knowledge, patience and represents the ability to thrive when faced with adversity; virtues and attributes quintessential in our quest for excellence. The feather quills were used for centuries by royalty and philosophers as the peacock itself was a symbol of royalty. Intellio is a manifestation of our stories past and contemporary future. The lower part of the logo takes the shape of a pen tip to reflect what we do & represent as a brand.
